DRAFT

Introduction

The Licensing Committee and officers are committed to ensuring the highest standards in order to protect public safety when administering this policy.

All requirements contained within this policy together with conditions on the licence are a mandatory requirement for holding a Hackney Carriage or Private Hire Vehicle Licence issued by Bournemouth Christchurch and Poole Council (BCP).

From the first day of adoption of this policy ALL licence holders are required to meet these high standards, and it is expected that they will ensure they are fully aware of this policy and comply with all the requirements set out within it.

The Licensing Committee will not accept the excuse that a licence holder was not aware of these requirements when considering any matters brought before them.

1. Purpose statement

- 1.1 BCP Council has a responsibility to issue Hackney Carriage and Private Hire vehicles, operators and driver licences under the Local Government (Miscellaneous Provisions) Act 1976 and the Town Police Clauses Act 1847.
- 1.2 The policy also reflects government guidance as set out in the Department for Transport Statutory Taxi and Private Hire Vehicle Standards issued in July 2020 and updated in 2022.
- 1.3 In the interest of public safety BCP Council seek to ensure that anyone issued with such a licence is considered to be 'fit and proper' and that the vehicle meets the safety standards prior to issuing or reissuing any licence.
- 1.4 This Policy is concerned with the regulation of Hackney Carriage and Private Hire licenced vehicles and the council adopts the overall approach to encouraging the responsible activity of all licence holders. In the interests of its residents and visitors, it will not tolerate any vehicle which poses a threat to the safety of any passenger or other road user.
- 1.5 Notwithstanding the existence of this Policy, each application or enforcement measure will be considered on its own merits. Where it is appropriate for the Council to depart from its Policy, clear reasons will be given for doing so. Nothing in this Policy will prevent an applicant or licence holder requesting that the Council considers the individual merits of their case and give reasonable consideration to departing from its Policy. Such requests may either be in writing via email or orally before the Licensing Committee or Sub Committee.

2. Who the policy applies to

- 2.1 This Policy will assist applicants, licence holders, officers of the Licensing Authority, Members of the Licensing Committee, and persons using Hackney Carriage or Private Hire vehicles to be aware of the standards of conduct and behaviour required of all prospective or existing licenced vehicle proprietors, drivers and operators.

2.2 This Policy also affords members of the Licensing Committee and Officers of the Licensing Authority alike, to consider the concerns of the public and other recognised bodies, and to take appropriate measures where the behaviour of licensed vehicle proprietors, drivers and operators are called into question at application or after licences have been issued.

 - The vehicle must then be tested no more than 6 months but no less than five months after the MEC issue date. This inspection will take the form of a standard Mot and can take place at any DVSA authorised garage. (If there is an existing Mot this can mean the vehicle is tested three times the first year to bring the testing into synchronisation with the policy requirements.)
- 8.2. Failure to complete the MEC or Mot by the due date will result in the vehicle licence being immediately suspended and the vehicle cannot be used as a licensed vehicle until confirmation that the test has been successfully completed is received and reviewed by the licensing team.
- 8.3. Failure to complete the MEC within two months of the due date will result in the vehicle licence being revoked.

- 8.5. If the vehicle fails the MEC and its condition represents a risk to passengers, a 'Stop Notice' will be issued, this suspends the vehicle licence until the necessary repairs are carried out and the vehicle has been rechecked at the testing station.

Data recorded by any CCTV system and dashcams must be handled in accordance with The Data Protection Act 2018 and General Data Protection Regulation(GDPR). The Information Commissioner's Office (ICO) is the UK regulator for all matters relating to the use of personal data.

However, if the system comes equipped with a sound recording facility, then this functionality should be disabled and only capable of being utilised in the following limited circumstances:- where the recording is triggered due to a specific threat to driver or passenger safety, e.g. a 'panic button' is utilised and must be subject to the following safeguards:-

7. The CCTV system must not weaken the structure or any component part of the vehicle or interfere with the integrity of the manufacturer's original equipment.

18. CCTV equipment should be e-marked or CE-marked. If CE marked confirmation by the equipment manufacturer as being non-immunity related and suitable for use in motor vehicles is required.
19. Activation of the equipment may be via a number and combination of options, such as - door switches, time delay, drivers' panic button or in the case of incident/event recorder, predetermined G-Force parameters set on one or more axis (i.e. braking, acceleration, lateral forces) and configured to record for a short period of time before the event, during the event and a short period following the event.

Security of Images

20. All images captured by the CCTV system must remain secure at all times.
21. The captured images must be protected using encryption software which is designed to guard against the compromise of the stored data, for example, in the event of the vehicle or equipment being stolen.

It is the responsibility of the Data Controller to consider the lawfulness of request to share data in line with the UK Data Protection Law.

31. The uploading of footage to social media does not have a lawful basis and it is expressly prohibited. This includes, by way of examples, but is not limited to: YouTube, WhatsApp, Instagram, TikTok, Facebook and Twitter.
